

FITCHBURG GAS AND ELECTRIC LIGHT COMPANY

INTERRUPTIBLE LOAD CREDIT

SCHEDULE I-FGE

The provisions of this credit are identical to Interruptible Load Credit I-N with the exception of three additional flexible options for Customers. These are: an option for the length of interruption, an option for the length of the notification period, and an option for seasonal use of the credit.

FORMULA FOR RATE I-FGE:

$$\text{CREDIT I-FGE} = \text{Credit I-N} * A * B * C$$

Where:

Credit I-N = the initial value of \$42.00 per KW per year as modified from time to time

A = Option for length of interruption

B = Option for length of notification

C = Option for Seasonal use

Option for length of interruption: = 100% for 260 hours per year
= 50% for 130 hours per year
= 33% for 86 hours per year

Option for length of notification: = 100% for 1 hour
= 90% for 4 hours
= 75% for 12 hours

Option for seasonal use: = 100% for all seasons
= 75% for summer & winter
= 50% for summer only
