

This Winter, Energy Costs are Expected to Increase for Customers Throughout New England.

Unitil is Here to Provide Relief.

We are 100% committed to lessening the impact of seasonal energy cost spikes on your monthly bills. Here are just a few suggestions on how you can prepare for the coming winter by taking advantage of no- and low-cost ways to use less energy:

- Get a no-cost energy assessment to discover energy-saving opportunities.
- Make energy efficiency improvements such as weatherization upgrades like insulation and air sealing.
- Take advantage of rebates and incentives on qualifying energy saving upgrades.
- Check to see if you're eligible for financial assistance, enhanced rebates, or no-cost upgrades.
